INNEHÅLL.

BAJER, A., Change of length and volume of mitotic chromosomes in living cells 579

BARBESGAARD, PEDER ØE and WAGNER, SVEND, Further studies on the biochemical basis of protoperithecia formation in *Neurospora crassa* 564

BECKMAN, LARS, A contribution to the physical anthropology and population genetics of Sweden. Variations of the ABO, Rh, MN and P blood groups .. 1

BECKMAN, LARS and BÖÖK, J. A., Distribution and inheritance of mid-digital hair in Sweden 215

BONNIER, GERT, Note on the relative sensitivity to irradiation damages in homozygous and heterozygous *Drosophila melanogaster* with regard to their capacity of producing offspring 675

BONNIER, GERT, JONSSON, ULLA-B. and RAMEL, CLAES, Additional experiments on irradiated populations of *Drosophila melanogaster* 441

EHRENBERG, L., GUSTAFSSON, Å. and LUNDQVIST, U., The mutagenic effects of ionizing radiations and reactive ethylene derivatives in barley 351

ELLERSTRÖM, SVEN, The co-variation of chromosome number and environment in *Phleum pratense* 461

FRÖST, SUNE, The cytological behaviour and mode of transmission of accessory chromosomes in *Plantago serraria* 191

FRÖST, SUNE and ÖSTERGREN, GUNNAR, *Crepis pannonica* and *Crepis conyzaefolia* — two more species having accessory chromosomes 211

HAGBERG, ARNE and ELLERSTRÖM, SVEN, The competition between diploid, tetraploid and aneuploid rye. Theoretical and practical aspects 369

HALL, OVE, Immuno-electrophoretic analyses of allopolyploid ryewheat and its parental species 495

v. HOFSTEN, ANGELICA, The vegetative nuclei of the fungus *Ophiostoma* 573

HÅKANSSON, ARTUR, Behaviour of different small accessory rye chromosomes at pollen mitosis 623

LAMM, R. and MIRAVALLE, R. J., A translocation tester set in *Pisum* 417

LEVAN, ALBERT and HSU, T. C., The human idiogram 665

LIMA-DE-FARIA, A., Matrix and kinetochore in living material 463

— Bibliography on autoradiography. With special reference to tritium labeled DNA precursors 632

LIMA-DE-FARIA, A., SARVELLA, PATRICIA and MORRIS, ROSALIND, Different chromomere numbers at meiosis and mitosis in *Ornithogalum* 467

MELANDER, YNGVE, The mitotic chromosomes of some cavicorn mammals (*Bos taurus* L., *Bison bonasus* L. and *Ovis aries* L.) 649

MOUTSCHEN-DAHMEN, MADELEINE, MOUTSCHEN, J. and EHRENBERG, L., Chromosome disturbances and mutation produced in plant seeds by oxygen at high pressures 230
NORRYD, CLAES, The chromosomes of three human cell strains 449
NYBOM, NILS, On the inheritance of acidity in cultivated apples 332
OFTEDAL, PER, A study of the retention and the mutagenic mode of action of radioactive phosphorus in *Drosophila melanogaster* 245
SARVELLA, PATRICIA, The behavior of accessory chromosomes in tetraploid rye 505
SKUDE, GUNNAR, Sweet taste perception for phenylthiourea (P.T.C.) 597
STRØMNÆS, ØISTEIN, Stock differences in X-ray mutational sensitivity pattern of *Drosophila melanogaster* 221
VIRKKI, NIILO, Neo-XY mechanism in two scarabaeoid beetles, *Phanaeus vindex* MacL. (Scarabaeidae), and *Dorcus parallellopipedus* L. (Lucanidae) 481
